----------------------------------------------	---

1. Introduction

Department of Veterans Affairs (VA) has a need to improve the efficiencies of the outpatient medical scheduling processes through improved visibility of information. VA has created a comprehensive scheduling solution to modernize the Veterans Health Information Systems and Technology Architecture (VistA) Scheduling (VS) product.

1.1. Purpose

The purpose of this document is to provide a summary of the enhancements and defect corrections that make up VS Graphical User Interface (GUI) Release 1.7.44.0. The release software package is comprised of the following:

- VS GUI application 1.7.45.0
- VistA M patch SD*5.3*851

1.2. Audience

This document targets the administrators and users of the VistA Scheduling package.

2. This Release

Please see Features and Functionality for a summary of the enhancements and defect corrections implemented with VS GUI Release 1.7.45.0 and VistA patch SD*5.3*851.

3. Features and Functionality

The following subsections describe the features included in the VS GUI 1.7.45.0 package and VistA patch SD*5.3*851.

3.1. Enhancements Implemented and Defects Fixes

Table 1 lists the enhancements implemented and defects corrected in VS GUI Release 1.7.45.0 and VistA patch SD*5.3*851. The work item ID is the Jira issue number.

Table 1: Enhancements and Defects Fixes

Work Item ID	Summary of Change
VSE-5941	VistA: Contact attempts are being returned for incorrect appointment request
VSE-5545	VistA: Modify SDES GET CLINIC INFO2 and SDES GET CLINICS BY CLIN LIST to return clinic status
VSE-5565	VistA: Modify SDES GET APPT REQ RPCs to return PID CHANGE ALLOWED (#49) field value
VSE-5670	VistA: Modify SDES SEARCH CLINIC ATTRIBUTES to return clinic abbreviation and array of provider names
VSE-5736	Update SDES SEARCH CLINIC to return correct Resource Status
VSE-5770	VistA: Do not allow entries to be stored in the CONSULT PID HISTORY (409.87) File.
VSE-5771	GUI: Do not allow editing of PID for consults or procedures
VSE-5775	VistA: Modify VistA Roll And Scroll open Veteran requests report to remove Patient Comments column
VSE-5818	VistA: Update the slot logic within SDES CANCEL APPOINTMENT 2 and SDES CREATE APPOINTMENTS RPCs
VSE-5891	GUI: Update Permanent Address Label to Mailing Address
VSE-5896	VistA: Update logic to review pt appt in the SDES GET APPTS BY PATIENT DFN3 RPC to prevent null subscript errors

4. User Documentation

The documentation distributed with VS GUI Release 1.7.45.0 is available for download from the VA Software Document Library (VDL).

5. Known Issues

All known issues resolved by this release were documented in ServiceNow tickets and/or Jira issues as part of the ongoing, post-warranty, sustainment effort. Appropriate issues, workarounds, and step by step resolutions are documented in Knowledge Base articles and included in the searchable ServiceNow Knowledge Base hosted by the VA Enterprise Service Desk (ESD).
